

**§ 518.36 Jeopardy of government interest.**

An exempted record, other than those being withheld pursuant to Exemptions 1, 3 or 6, shall be made available upon the request of any individual when, in the judgment of the releasing DoD Component or higher authority, no jeopardy to government interest would be served by release. It is appropriate for DoD Components to use their discretionary authority on a case-by-case basis in the release of given records. If a DoD Component determines that a record requested under the FOIA meets the Exemption 4 withholding criteria set forth in this publication, the DoD Component shall not ordinarily exercise its discretionary power to release, absent circumstances in which a compelling public interest will be served by release of that record. Further guidance on this issue may be found in § 518.37, Number 4. and § 518.65.

## EXEMPTIONS

**§ 518.37 FOIA exemptions.**

The following types of records may be withheld by the IDA in whole or in part from public disclosure under the FOIA, unless otherwise prescribed by law. A discretionary release (also see § 518.23) to one requester may preclude the withholding of the same record under a FOIA exemption if the record is subsequently requested by someone else. In applying exemptions, the identity of the requester and the purpose for which the record is sought are irrelevant with the exception that an exemption may not be invoked where the particular interest to be protected is the requester's privacy interest.

(a) *Number 1.* Those properly and currently classified in the interest of national defense or foreign policy, as specifically authorized under the criteria established by executive order and implemented by regulations, such as DoD 5200.1-R (reference h). Although material is not classified at the time of the FOIA request, a classification review may be undertaken to determine whether the information should be classified. The procedures in § 518.53(c)(4) apply. In addition, this exemption shall be invoked when the following situations are apparent:

(1) The fact of the existence or non-existence of a record would itself reveal classified information. In this situation, Components shall neither confirm nor deny the existence or non-existence of the record being requested. A "refusal to confirm or deny" response must be used consistently, not only when a record exists, but also when a record does not exist. Otherwise, the pattern of using a "no record" response when a record does not exist, and a "refusal to confirm or deny" when a record does exist will itself disclose national security information.

(2) Information that concerns one or more of the classification categories established by executive order and DoD 5200.1-R (reference (h)) shall be classified if its unauthorized disclosure, either by itself or in the context of other information, reasonably could be expected to cause damage to the national security.

(b) *Number 2.* Those related solely to the internal personnel rules and practices of DoD or any of its Components. This exemption has two profiles, high b2 and low b2.

(1) Records qualifying under high b2 are those containing or constituting statutes, rules, regulations, orders, manuals, directives, and instructions the release of which would allow circumvention of these records thereby substantially hindering the effective performance of a significant function of the DoD. Examples include:

(i) Those operating rules, guidelines, and manuals for DoD investigators, inspectors, auditors, or examiners that must remain privileged in order for the DoD Component to fulfill a legal requirement.

(ii) Personnel and other administrative matters, such as examination questions and answers used in training courses or in the determination of the qualification of candidates for employment, entrance on duty, advancement, or promotion.

(iii) Computer software meeting the standards of § 518.10(c), the release of which would allow circumvention of statute or DoD rules, regulations, orders, directives, or instructions. In this situation, the use of the software must
